

What is included: transfer from and to airport; all transport costs; all entry tickets and entertainments; Lunch in Saami and Husky center in Lovozero; 2 Northern Lights huntings (If you won't see Aurora during first 2 nights, or it will be very weak, we will do third night of Aurora hunt for free); photography during the tour including photos with Aurora.

What is extra: food that is not mentioned above (around 700-1500 RUB for lunch or dinner per person); Murmansk accommodation. Food in restaurants and hotels are not included in a tour because we don't want to limit our tourists. During the tour you may want to try some specific Northern food that is more expensive than standard food. If your group need video clip, not only photos, we can also make a cool video about your adventures. The price of video is 10000 Rubles per group.

"ADVENTURE LOVER" package

Day 1:

- Transfer from the airport, check in the hotel and lunch in the nice restaurant of traditional Russian cuisine
- Murmansk city tour. Murmansk is the largest city in the world located inside Polar Circle. We will learn about history of Murmansk that is deeply connected with World War I and World War II. We'll see Alyosha – a majestic monument to Soviet defenders of Arctic in WW-II with very deep meaning. Russia is a Orthodox Christian country, so during the city tour we will visit 2 main orthodox churches of Murmansk: Saviour on Waters (beautiful white church) and Kola Feodorit (The church built of wood in traditional architectural style).
- Ice-Breaker "Lenin". It's first in the world Nuclear powered Icebreaker – the miracle of Soviet engineering! Construction of Lenin was a first step in new era of nuclear engines for civil vehicles and researching of Arctic! Not many people know that diesel-powered Icebreakers could operate in the Arctic only for 2 month, but Lenin could operate around 35 years! It was most technologically advanced vehicle in the world of that time! And these technology helped to explore Arctic Ocean, it's flora and fauna, oil and gas places and ocean streams. Also Icebreakers are used in rescue missions to save ships and submarines which are stuck in the ice. Today Russia is the only country in the world that owns nuclear-powered icebreaking fleet!
- Dinner in the authentic restaurant of Russian and Nordic cuisine. We will go to one of the best restaurants of Murmansk to try some local specification like Russian cuisine, wild meat, local nordic fish and seafood :-)
- The most amazing part of your trip – Aurora hunting at night.

Day 2:

- Meeting in the hotel and driving to Teriberka! The road to Teriberka lies through the tundra and beautiful scenarios of northern nature. And of course on the way we will have several stops in beautiful places for taking pictures :-). Teriberka itself is a small fishing village on the shore of Arctic ocean. We'll see old ships on the shore, visit beautiful cliffs and mountains,

we will see the beach with big round rocks that we call "dinosaur's eggs" and see amazing waterfall. These places are quite remote from the village, that's why we can reach them by car in autumn, and during winter time it is possible to visit these places only by snowmobile, so if you come in winter we will have an exciting snowmobile ride with a sleigh as well :-)

- Dinner in the restaurant in Teriberka with a view of Arctic Ocean. And trust me, it's the best place to eat delicious King Crab :-)

- After admiring beautiful nature of Teriberka, depending on weather, we can stay there to watch Aurora or go back to Murmansk and try to catch Aurora on the way or will go to another place for Aurora hunting if the weather in Teriberka and Tundra will be bad :-)

Day 3:

- Trip to Arctic Land center near Lovozero village (Saami village + Husky farm). This will be one of the most interesting and exciting days of your trip! We start from Murmansk in the morning and have a journey of 160 km from the city. Arctic Land is located deep in the forest, so during the trip we will admire breathtaking views of the nordic forest, trees covered with a snow, you will get to real winter wonderland :-) On arrival we will have a lecture about Saami people - the indigenous tribe that lived in Murmansk region ages ago up to now. Traditionally they've been hunters, fishermen and reindeer herders. Religion of Saami people is paganism with strong shamans who prayed to natural things (rivers, lakes, forests and stones). We will learn about their culture, traditions and lifestyle, feed reindeers and will have an exciting ride with reindeer sleigh :-)

- Delicious lunch of Russian and Nordic food (included in the tour price).

- After learning about Saami culture and riding reindeers, we will have one of the most happy moments of the tour because you will meet huskies - the most friendly and cutest dogs in the world! We will play with them, learn about the breed, and you will have an exciting ride with dog sleigh for long distance of 1500 meters! :-)

- Depending on the result of hunting during previous 2 nights, we go back to your hotel for you to have some rest before the flight, or we will go to Aurora hunt again if we don't see it in previous nights.

Day 4:

- Transfer to the airport and good bye hugs :-)

- Depending on the result of hunting during previous 2 nights, we go back to your hotel or will go to Aurora hunt again if we don't see it in previous nights.

Day 4:

- Snowmobiles in Murmansk ski-resort (1 hour of driving). It's a good experience for those, who want to try driving of snowmobile by themselves. The tour will take place near Murmansk in the forest and on the hill with beautiful view of the Murmansk. This tour includes equipment (boots, thick coats and pants, helmets, gloves to protect from cold), 1 hour of driving. You will be riding 2 persons on 1 snowmobile (first one person is driving, then you change).

- Skiing/snowboarding with instructor (1 hour lesson with instructor and 1-2 hours of riding by your own). You can try this activity even if you never tried it before (or tried without good success) and want to try to learn how to do it. We will go to the ski resort in Murmansk and will have 2-3 hours of riding (1 hour with instructor, 1-2 hours without) on the slope for beginners (or for experienced riders if you are brave enough). You will be provided with skiing/snowboarding equipment (boots, poles and skis/snowboards).

- Banya (traditional Russian Sauna). Banya is the most crazy activity that you can experience in Russia! First you sit in the steam room with hot air to heat your body "up to bones", then you have a massage with birch tree leaves and after that you run in the street and jump in the snow! I know that it sounds crazy, but it's very good for health, makes a lot of fun and becomes one of your best memories about trip to Russia :-D You can google what it is to understand it more properly :-) It is available for people up to 50 years old with no problems with health (heart, lung, blood pressure).

- Farewell dinner in the high class restaurant of international cuisine.

- Depending on the result of hunting during previous nights, we decide if we stay longer in the restaurant or will go to Aurora hunt again if we don't see it in previous nights.

Hope this service will help you to keep warm in cold Arctic climate and enjoy your Murmask tour :-). So if you need to rent clothes, please tell about it in advance :-)

Why to choose us in Murmansk :-) ?

We understand that people would like to compare our offer with offers of other guides and agencies. So please pay their attention to these points when they compare:

- Try to search feedbacks about agencies in internet to check the experience that other tourists had with them. Better try to find feedbacks after tours on last season (September 2017 - April 2018). Unfortunately there are some agencies in Murmansk which provide tours of poor quality and don't care about their customers.

- Husky ride. Ask about distance of ride :-). Many agencies offer short ride of 400 meters only but don't say about it. We offer longer distance of 1500 m. This is totally different emotions :-). and usually husky become one of the most exciting experiences of the tour. But with short 400 meters ride you will not understand anything.

- Reindeer ride. Some companies take you to the Saami village where it's impossible to ride reindeers, only feed them. We offer reindeer riding as well :-)

- Some companies offer Aurora hunting only for 3-4 hours (or some other limited time), but for us it sounds like a trick :-). Sometimes it takes much more time. When the weather is bad we need to go around 100-150 km from the city, because it's the highest priority of the tour for you to see Aurora. And nobody can guarantee you when it will happen for 100%. What if you come and Aurora doesn't appear after 3 hours (besides usually these 3 hours start from your hotel and include time for driving back to hotel). Or what if it will happen earlier before you left your hotel (because you have limited time, they won't start hunting early). In this case you can miss Aurora at all. So the whole purpose of your trip would fail. Or what if after 3 hours Aurora just started and they say that it's time to go back? In this case you'll need to

pay extra money for every extra hour :-) Of course if the weather will be good, you can be lucky and see Aurora, but if the weather is cloudy - you will miss it. Aurora hunting is quite complicated process. You need to check forecasts, change locations, follow clouds to find clear sky, etc. But in case of such tours they just bring you to the parking which is closest to the city and wait. So at the end you can have a tour without success for Aurora or you'll have to pay extra money for extra hours :-)

- Ask if other agencies include photos of Aurora in the tour price? If not, you have a risk to save money on your memories. Even if you have good camera, you can take pictures of Aurora, but it's quite difficult to take pictures of people with Aurora. And also try to search in internet their photos of Aurora and people+Aurora to check the quality. If can't find - ask them to send their photos to you.

- Lenin Icebreaker is a huge ship and very interesting museum, during excursions you can go inside of the ship and learn a lot about exploring of Arctic with the help of Icebreakers. Unfortunately many agencies don't bring tourists there during city tour. So ask them if they include Lenin Icebreaker in the City tour or you need to pay for this extra.

- Do they include riding with snowmobile in Teriberka? We include, because it makes a lot of fun, but many agencies don't. Sometimes they offer you to pay extra for snowmobile and if you don't want - you can go there by foot (around 1-2 hours one side through deep snow and cold strong wind)

- We stay with you during lunches and dinners! We really sure that good trip depends not only on places that you visit and people who travel with you (both are very important of course), but another one ingredient of good trip is the food that you eat! And of course, delicious local food in good tasty places makes your tour even more exciting! Murmansk is a city on the very North of Russia, so local cuisine is a mix of traditional Russian and Nordic food! Nowadays, Murmansk becomes very popular destination, that's why you need to book a good restaurant in advance, as sometimes it's impossible to get there because everything is full! During our tours we book in advance and visit best restaurants of Murmansk like Tundra, Royal Hunt, Kruzha, Terberskiy Bereg, Terassa and others with you! Also we stay with you during lunches and dinners to recommend you the most delicious food for you not only enjoy beautiful nature, but also to try the most delicious dishes of our cuisine because we really sure that good food is one of the main parts of good travel :-)

- You need to ask whether you have private tour or not. And if the tour won't be private, ask if they provide some discounts in this case or not. Also ask about size of group. Many agencies mix groups up to 40 people. Are you sure that you want to be a part of it? ;-)

- Ask to confirm that the price they gave you is the final fixed price. This season prices will grow because many partners increase the price. But many agencies still use this trick - they tell you the price, but closer to the tour they notify that unfortunately price changed and you need to pay extra.

- We are the only company that offers movie about the trip after the tour (for extra cost). Of course if you need only photos - it's not an advantage. But if you want to save your memories with video, we can do it as well :-)

- We provide maximum care and attention to every tourist, and we are always with them from early morning till late night (unless people want to have some rest). We help to check in (not just drop near the hotel, because in some places the staff doesn't speak English), if there are a lot of ladies or old people in group, we help with the luggage, we stay with a group during lunches and dinners to recommend good food and just to chat together (many guides and companies just leave people in the restaurant and pick them up after dinner) and we even assist if our tourists had some issues/troubles or just need help in Russia (before or after Murmansk trip) :-)

So we include all "must do" things and places for you not to miss anything funny and important and get your best adventures in Murmansk for final fixed price. Of course you are free to choose any tour you like for any price. But now, when you have all this information, you can ask questions, check details and compare offers with these important points for you to get your best experience in Murmansk :-)

Waiting for your reply :-) And if you have any other questions or need some recommendations - feel free to ask :-)
